Chief Executive's statement

2025/26 was the year Delcorn proved that remote, coach-led apprenticeships can deliver outstanding outcomes at scale. Our achievement rate rose to 83.8%, Ofsted recognised our work as 'Strong standard' across the board, and the AI Academy became our fastest-growing area. Our first full year as part of Meridian Education Group gave us the stability to invest in coaches, technology and new programmes while remaining independent in how we serve learners and employers.

Financial review

Revenue grew to £11,940,965. Apprenticeship funding rose from £6,930,892 to £9,800,965, driven by higher on-programme numbers and a strong year of completions. Commercial income of £2,140,000 came mainly from leadership and AI programmes for corporate clients outside the levy.

Apprenticeship funding by academy, FY2025/26

Academy	On-programme funding	Completion funding	Total funding
Data Academy	£3,405,341	£527,600	£3,932,941
AI Academy	£2,414,294	£433,800	£2,848,094
Leadership Academy	£1,400,540	£184,100	£1,584,640
Digital Academy	£1,021,912	£103,400	£1,125,312
People Academy	£273,178	£36,800	£309,978

Principal risks

The board's principal risks are set out in the Corporate Risk Register. The highest residual risk is R01 – Changes to apprenticeship funding policy reduce income, reflecting the reduced eligibility for Level 7

apprenticeships from 2026.

Outlook

FY2026/27 has started in line with budget, with apprenticeship funding of £2,232,790 earned to the end of October. The board expects continued growth from AI4 and commercial programmes to offset the Level 7 reduction, in line with the *Growing Together* strategy.
